

Program for sponsored workshops at the 12th Joint Scandinavian Conference in Cardiothoracic Surgery

Wednesday, September 8th at the conference hotel, Radisson Blue Royal Bryggen

09:00-11:00 **Anastomotic skills workshop (SATS)**

The workshop focuses on the learning of the technical skills needed for a perfect anastomosis. The course contains hands-on training and will give the participants career-long tips on a more effective way of suturing the anastomoses.

Prof. P Sergeant, Leuven - digital

Dr. ML Kaljusto, Oslo

Sponsored by ETHICON and Ortomedic

11:30-13:00 **Mitral valve repair surgery – Wet lab (SATS)**

Edwards Lifesciences invites you to a mitral valve repair workshop. Prof Haaverstad will share of his expertise when implanting the Edwards Physio II mitral ring

Prof. R Haaverstad, Bergen

Sponsored by Edwards Lifesciences

13:00-13:30 **Lunch sponsored by Edwards Lifesciences**

13:30-15:00 **Aortic valve replacement - Wet lab (SATS)**

Abbott Sponsored Wetlab sessions: This session focuses on aortic valve replacement and the variety of choices when it comes to this procedure. Attend this session if you want to learn more about the characteristics of different mechanical and biological prostheses used for surgical aortic valve replacement.

Dr. VS Ellensen, Bergen

Sponsored by Abbot

In general, it is an advantage for the participant to bring personal magnifying glasses

16:00-18:00 A “pop-up” workshop on brace treatment of pectus carinatum is planned

Edwards
